

We hope that the Committee, having charge of the preliminary arrangements for celebrating the coming Fourth of July, will set about their work promptly and do it up thoroughly. There is a very general determination among our citizens to get up the best celebration we have yet had here. The Military Companies, the Fire Department, the Civic Associations and the public generally, will heartily assist in the good work. It is proposed to have a grand Procession, with orations, songs and music, in the morning; a Regatta on the river, in the afternoon; and bonfires, fireworks, music and dancing, in the evening. If the programme be arranged in good season, it will be published, ten thousand of our country friends will come into Milwaukee to spend the Fourth and help keep holiday.

P. S. See the call from the Committee in our advertising columns.

Milwaukee & Mississippi R. R.

We learn that the earnings of the Milwaukee & Mississippi R. R. for the month of May were about \$80,000, being an increase of nearly \$20,000 over the same month of last year. But for the trouble resulting from the freshet in the Wisconsin river, and the delays of goods by the Erie Canal, this amount would have largely increased. Large figures are anticipated for this month.

Lawyers in Kansas.

The news of yesterday gravely informs its readers, for the fifth time, or so, that things are all right in Kansas, notwithstanding the wicked attempt of "the Sentinel" and the "Black Republican" prints, "to prolong the reign of deception and ignorance, by denying the truth, discrediting the facts, and reducing the present Kansas officials." The News, of course, is bound to whitewash and justify all that the Federal Administration, whose liveries it wears, may see fit to do in Kansas. It serves up, daily, to its readers, just what "the powers that be" wish them to see and believe, and confuses itself, strictly and conscientiously, to this narrow and partisan view of the subject. The *Sentinel*, on the other hand, drives its information from independent and therefore more reliable sources. We have quoted largely and regrettably, for instance, from the *Missouri Democrat*, the oldest, ablest and most influential Democratic paper, published in that State; which has nothing in common with Republican party, save the desire and determination to make Kansas free. We copy, this morning, some further extracts from that outspoken and excellent paper, and invite our readers to compare the statements of Democratic witnesses on the ground, with those of the "Black Republican" prints.

The *News* of course, will strike the *sentinel*; but—

If it does strike, it will never do it the second time.

In case, however, any gentleman holds opinions different from the above, and is willing to back his views to a limited extent, in order to arrive at the truth of this momentous master, we hereby make the following:

"We will pay \$20,000 more or less, that if the *sentinel* offers to strike, we will do it before it does it; in other words, that we don't care if it does strike."

"We know that if it does strike, it will be done higher than a kite."

Twenty-five times the above amounts, that in case the come strikes, it would be done once, for Waukesha last fall, and he who has not, upon the census lists, will be done in accordance with the principles of our law made for that town, and the people could not know where their names were down or not.

The report that Ensign was on trial, sent to you by a fast mail, was incorrect.

Lawrence, May 27.

The citizens of Lawrence called a meeting in the large room of the Unitarian Church last evening, to hear Senator Wilson, the Rev. Mr. Pierpont, and Dr. S. G. Howe, who, with Lawrence as they were, went westward.

This meeting still comes to Lawrence the same day, and by invitation were present at the meeting. The Church was crowded. Judge Conway presided, and first introduced Mr. Pierpont, who gave a short speech, and then our audience. He referred the people of Kansas to the Constitution of the United States, and told them that after the comet strikes, it would be done in accordance with the principles of our law made for that town, and the people could not know where their names were down or not.
